March - Highlights and notable incidents

- Spring thaw is upon us. Issues with snow and pushing of snow onto roadways and ditches have been plentiful.
- CSO Program Management review took place. It was a positive interaction with the Saskatchewan government.
- Met with the RCMP Detachment Commander of Smeaton and the Village CAO concerning RCMP staffing levels for the upcoming summer.
- A cat which had been lost for months was located laying on a roadway and able to be reunited with its grateful owners.

Priorities for Next Month

- CSOs are preparing for an increase in traffic related contacts due to the roads becoming bare.
