

Candle Lake Art Club

The Candle Lake Art Club began its creativity and discovery at Candle Lake due to the vision and desire of a small group of individuals that recognized a need to provide an opportunity for the residents of Candle Lake to find that inner creativity in us all. As a result we have a vibrant group of individuals that meet on a weekly basis from September to May

The club is open to all Candle Lake residents. We meet every Wednesday, in the Seniors Center, located on the upper floor of the Community Center.

There is a small registration fee to join, and these funds then help to offset expenses such as rental fee, supplies and materials. Anyone interested in giving the club a try but unsure if it is their thing can attend up to three sessions utilizing the club supplies and material before paying registration. Our goal is to give individuals an opportunity to try the club out, then make a decision to join. The club has also applied to Community Grant funds to enhance the Club in the community.

The participants have used many mediums such as oil, acrylic and water color to mention a few. We utilize the skill and expertise of each other to learn new and interesting techniques. We also have invited artists from outside the community to provide club members with various art techniques. It truly is a learning experience for all.

Alongside the weekly art club sessions, the club has participated in several community wide events such as Christmas in July, Canada Day Celebrations, Art on the Beach to list a few.

New members are always welcome. Please join us and find that inner creativity we all have.
