

## Cross Country Skiing at Candle Lake

Cross country skiing has always been a part of the winter scene at Candle Lake. In 2000 the Sno Skiers were formed by Lu Crawford, the Camerons and the Horns. This group with up to 30 members and business sponsorships bought an Alpine Snowmobile, a pipedrag and a track setter, cleared and groomed the Baldy and Bay Lake system of trails, hosted ski clinics and loppets.

In 2011 Parks and Rec assumed the assets and responsibilities of the Sno Skiers to continue providing groomed trails for winter use. With Community Grant money an annual ski/curl day was organized by the skiers to provide instruction to the Meath Park Grade Sevens. More recently (2016) the West End ski enthusiasts developed and maintained ski trails from Telwin to Van Impe and the Provincial Park re-entered the ski scene by improving and maintaining the Baldy trails in 2018. Candle Lake Trails Advisory Group (CLTAG) budgets for continued ski trail maintenance.

Local businesses have ski trail maps in season and the Candle Lake website has cross country ski trail maps, look under, Things to Do, Winter, Cross Country Skiing. Enjoy the trails!

## Snow Shoeing

Designated snow shoeing terrain are located at the Aschim trails.
