

THE RESORT VILLAGE OF  
CANDLE LAKE

---

# **Notice of Controlled Burn at Landfill Site**

Please note that we will be burning at the landfill starting Dec 30, and going through the weekend. This is a controlled burn and being done to reduce the large amounts of shrubs and timber that has been brought into to the landfill. While at the landfill please stay away from the flames and out of the smoke for your own safety.

Also, we have a crew cleaning up the metal pile. If you have metal to bring into the landfill, please follow village employees' instructions and maintain a safe distance from operating equipment.

If you have any questions or concerns, please contact the office between 8:30 to 4:30 at 306-929-2236.

Starting Jan 2, 2021 we will resume regular seasonal landfill hours and open only on Saturdays and Tuesdays.

Thank you for your cooperation.
